

**Navigating the journey to  
trauma recovery,  
promoting a healing  
community and supporting  
the Dayton Strong!**

The TRC is here to empower you in the fight against trauma by providing treatment and helping people navigate through their new lives in addition to the justice system.

# ABOUT US

Family Services Association has been at the forefront of designing programs and delivering services that meet the needs of individuals, families and communities for over 125 years.

We have now been granted the opportunity to continue these efforts through the specialized model of the Trauma Recovery Center.

## OUR SERVICES

### Individual Counseling

Often victims of a crime, their family members and first responders do not get the services they need to manage their lives after experiencing traumatizing events. Our qualified and experienced counseling staff can be of assistance to these survivors.

### TRC Dayton Resiliency Processing Group

Healing does not take place in a silo. As humans our individual capacities can be limited based on our education, profession and life experiences. Processing groups for victims of a crime are great alternatives to the social withdrawal that can take place after traumatization. You are not alone!

### Case Management

Navigating child care, the criminal justice system or finding resources to help with getting back on your feet after experiencing trauma can seem almost impossible. Let our Trauma Informed team of professionals guide you on your healing journey.

## SPECIAL FUNDING MAY BE AVAILABLE FOR THOSE WHO QUALIFY

We have a long history of helping victims who often find themselves trapped in a cycle where healing becomes a true challenge. Combined with our total program services including Womanline which addresses rape and sexual assault, the TRC will continue this legacy by working with victims of all crimes.
